Try Making Cough Syrup at Home. Quick Relief

Saves You Big Dollars. And of Pinex. Pour this into a pint bottle and fill up with your syrup. This makes a full pint—a family supply— No matter what you usually use for and gives you about four times as coughs due to colds, you'll be more than surprised when you make up this simple home mixture and give that a trial. You'll wonder why you never used it before. It certainly does the work in a hurry.

Make a syrup by stirring 2 cups of granulated sugar and one cup of water a few moments, until dissolved. No cooking is needed—it's no trouble form, a family supply—and gives you about four times as much for your money. It tastes fine and never spoils. Children love it.

And for quick action, you've never seen its superior. It loosens the phlegm, soothes the irritated membranes, eases the soreness, makes breathing easier, and lets you sleep. Pinex is a special compound of proven ingredients, in concentrated form, a famous reliable soothing at all.
